

# i-Pilot™

**i-Pilot installs simply:** just replace the top of the motor head, activate your remote and you're ready to fish.

## NEW WIRELESS GPS TROLLING SYSTEM

### CHECK OUT ALL THE WAYS i-PILOT™ CAN HELP YOU CATCH MORE FISH.

↘ **RECORD A TRACK.**  
Simply push the Record button and fish along your desired course. i-Pilot will store that track to memory (up to three separate tracks). When you want to retrace a course, i-Pilot's Playback functions will automatically guide your boat along the track.

**RECORD A TRACK:** i-Pilot can record your track (A to B), for up to two miles. To retrace your path in either direction, just press the Track to Start or Track to End buttons.

↘ **SPOT-LOCK.**  
Spot-Lock works like an electronic anchor. Choose up to three separate spots for i-Pilot to remember, and at the push of a button, it will correct for wind or currents to hold you in place. Spot-Lock Recall lets you return to your spot later, from up to a quarter mile away.

**SPOT-LOCK:** Select your spot, and if you drift more than five feet away, i-Pilot will trigger your trolling motor to bring you back.

↘ **CRUISE CONTROL.**  
i-Pilot's cruise control function gives you unparalleled bait presentation, by maintaining your actual on-the-water speed (in miles per hour) and allowing you to adjust your speed in 1/10-mile-per-hour increments.

↘ **ADVANCED AUTOPILOT.**  
Simply point your trolling motor in the direction you want to head and activate Advanced AutoPilot. i-Pilot keeps you on your heading and delivers you there with GPS accuracy, while compensating for wind, waves, currents or drift.

↘ **COPILOT.**  
Control speed, steering, on/off and high-speed bypass – our legendary CoPilot functions – from your i-Pilot remote. Free yourself from the foot pedal and fish from anywhere on the boat.

**TWO YEAR WARRANTY**

i-Pilot accessory is available for Terrova and PowerDrive V2 bow-mount trolling motors.

**FEATURES MINN KOTA'S TWO-YEAR WARRANTY**

Actual Size

**THE REMOTE.**  
i-Pilot's clear, integrated, backlit LCD screen delivers instant feedback on active functions, speed, prop on/off status, battery power and GPS signal strength. All encased by a watertight, fully gasketed remote. Includes lanyard and carabiner.

# i-PILOT

## THE NAVIGATION REVOLUTION.

It's simple: the less time you spend steering and positioning your boat, the more fish you can catch. Enter i-Pilot™, which controls and steers your boat for you using GPS technology. Lock onto a fishing spot at the push of a button – and stay there. Record a successful path and retrace it later. Set cruise control for perfect bait presentation. All wireless, all with GPS accuracy, all with the sole purpose of making you a better angler.
